Dr. Ravin and his team have been absolute shining stars since they set up their office in Burlington. All of their wonderful personalities create an upbeat and cheerful office environment all the while delivering the most comprehensive and individualized care. What impressed me the most was that Dr. Ravin teaches at UCONN School of Dentistry and his staff have worked with him for over 15 years. In addition he personally has checked on me via text after my procedure. Our conversation went as such Dr. Ravin wrote "Good Afternoon. Just wanted to make sure you are doing ok after the dental appointment. Thank you for your time and trust today!" My response "I'm doing very well. It's so easy for me to trust someone who has a great sense of humor, loyal staff and has created such a lighthearted yet professional environment. I am grateful of your care." Dr Ravin texted back "It's truly my pleasure from the bottom of my heart." I am happy beyond words putting my dental care in his hands.

He made my husband feel like he was visiting a family member. Very genuine and homelike setting. Just what you want when you go to a healthcare professional.

I enthusiastically write this review after leaving my very first visit to Elite Smiles + Dr Ravin. I am so appreciative of the genuinely, warm welcome I was given. The level of professionalism is only matched by the staff's kindness. The way the staff spoke about one another with such respect and joy made me feel like I was in a truly caring place. The office is clean and Dr Ravin is even well versed in TCM techniques which I love. Thank you for my first, pleasant dental experience in a very long time :)

I had major dental work done and Dr. Ravin and his staff made this as easy as it could possibly be. They were very concerned throughout the proceed that I was comfortable and not in any pain. Everyone was very pleasant and accommodating. They also worked very efficiently together. Also the end product of their labor is amazing.

The only way I can describe Elite Smiles is with this unknown author quote "The best and cheapest dentistry is when the right thing is done extremely well the first time and it lasts for a long time." Special Thanks to Dr. Ravin & his great staff.

Super friendly staff, went into more detail on my checkup than I have ever had at any dentist before.

A rave review for Dr. Ravin and the entire Elite Smiles team. Everyone is so caring, friendly, upbeat, and professional. I had my previous dentist for over thirty years and he retired. We had a great relationship and rapport; it was not going to be easy to replace him. Needless to say I was quite apprehensive in choosing a new dentist. But, I thought I would give Elite Smiles a try. I could not be happier with my choice. Dr. Ravin and his team are just the best! I had a procedure done with beautiful results and the most important thing to me-TOTALLY PAINLESS! Dr. Ravin has a great personality and sense of humor. He makes you feel like you are his only patient in the world. I can't say enough positive things about my dental experience. So it's a RAVE for the RAVIN. You will never dread a dental appointment again. P.S. This is not a paid review. LOL.

Elite Smiles were able to fit me in the next day after learning that my previous dentist cancelled my cleanings four times and other dental offices reported delays of up to 3 months for cleanings. The staff was very pleasant and welcoming. Jody, the hygienist was professional, pleasant and extremely thorough. Dr. Ravin was very accommodating and put together a plan for follow-up that worked with my schedule. Definitely recommend based on my initial visit.

Dr. Ravin and his team have always taken care of me. Their friendliness, humor and compatibility as a team makes you feel at ease even if you aren't comfortable at a dental office. I'd recommend them to anyone seeking professional and honest advice!

I have had superior care with Dr. Ravin and his staff for many years. His office staff is friendly, timely, and masterfully cares for my dental needs from start to finish. Dr. Ravin is caring and an awesome technical dentist. I refer new patients to Elite Smiles in Burlington CT any change I get! Thanks everyone!

Great experience with Elite Smiles.

I'll preface this by saying that my mother works in the dental industry: I was raised to be cognizant of the differences in good dentistry and not so good.

When it came time to relocate to another town, I found Elite Smiles and scheduled an appointment for a cleaning.

The hygienist that Dr. Ravin employs - Jodi, is phenomenal. Having had two appointments with her, I can attest to her thoroughness, and her great work. She strives for perfection, and goes above and beyond in scaling and plaque removal (some offices leave you feeling as though they only skimmed the surface and barely scraped - not this one).

All the while, she is extremely polite and social, putting you at ease.

Dr. Ravin is extremely straight forward, and will tell you any and all work that is necessary, and what may not be.

It's clear that the motivation at his office is to do what is right and what is best for the patient.

His entire team in the office is beyond polite and courteous, and truly do make you feel that you are their priority.

I hadn't been to Dr. Ravine's office in a long time. As soon as I walked through the door I felt right at home. 10/10 Highly Recommend. The best dentist office I could ask for.

I have been a patient of Dr. Raven's for over 20 years. He is compassionate and ALWAYS available for his patients providing them with the best options for their care. His knowledge of dentistry is "state of the art". The office staff reflects his kindness and are very knowledgeable and helpful. Lastly, his generosity and humanity for the less fortunate is beyond admirable!

As always I had a 5 star visit at Elite Smiles today. I could not keep my morning appointment and they accommodated me in the afternoon. Not many practices would do this. In addition to excellent dental care I appreciate their willingness to make things as easy as possible for their patients.

This is a very special place! When we called to possibly schedule an appointment for the first time for my elderly dad, we were greeted with warmth, laughter and compassion. Dr. Ravin was empathetic and respectful to both my dad and me. My dad was treated with kindness and cared for with competence. The office is clean and professional. We were told they are in the process of renovating it, but you would never know it. The staff was very professional, warm and compassionate, as well. In fact, it spoke volumes to hear that each staff member has been with Dr. Ravin for 20, 25, and 12 years!! Now that "speaks volumes" about a happy place!

I really appreciated Dr. Ravin taking his time with my dad. He made us feel like he cared more for my dad's well being rather than just treating us like "just another number" walking through his office. He was personable, kind and noticeably humble about donating 1/3 of his profits to children in need, supporting an animal shelter, and each year donating a week of his time to travel and care for children in need in the Amazon! What an incredible human being. I found him quite inspirational.

As we were walking out, Dr. Ravin and his staff took the time to chat with us and made us feel welcomed. We also received a hand-written Thank You note from his kind assistant and a warm Thank You text from Dr. Ravin for "giving them a chance."

We highly recommend this hidden gem of a dentist! We feel very blessed to have found Dr. Ravin!!!
